VERATRACE — FORMAL INCIDENT REPORT DRAFT

SIMULATED DEMO DATA — INTERNAL COMPLAINT DOCUMENTATION

Case Reference: VT-DEMO-2026
Incident Category: Cross-Platform Cyber Harassment & Coercion
Date of Filing: October 15, 2026
Preservation Status: Local Vault Cryptographically Verified (SHA-256)

1. Incident Overview

The complainant reported escalating, persistent unwanted communications originating across multiple communication channels including WhatsApp, Instagram, and ProtonMail.
Despite an explicit refusal and subsequent number blocking on October 14, 2026, the sender migrated to secondary channels, creating burner accounts and issuing demands accompanied by threats of reputational harm.

2. Observed Cross-Platform Identifiers

- Primary Sender Phone: +91 98201 44892 (WhatsApp & SMS touchpoints)
- Linked Instagram Handle: @karan_archive_temp (Created following WhatsApp block)
- Registered Sender Email: karan.v.design@proton.me
- Distinctive Threat Phrase: "project_starlight_leak"

3. Chain of Custody & Statutory Certificate Draft

All electronic records referenced in this report have been intake-hashed with SHA-256 upon selection in the VeraTrace client-side vault. In accordance with Section 63 of Bharatiya Sakshya Adhiniyam, 2023 (BSA), this documentation is prepared for official reporting on cybercrime.gov.in.
